**5 Days // 3 Field Trips // Poster Sessions // Workshops // Networking Event**

**Plenary Speaker: Yiqi Luo (USA) // Marcel van Oijen (UK) // Sandrine Petit (FRA)**

**Conference Chairs: Frank Ewert (GER) // Mark Rounsevell (GER)**

### Rationale and Aims

Agricultural landscapes are shaped by human activities and are subject to permanent change through the interplay of natural processes, land use and societal developments. Knowledge about the underlying processes of landscape dynamics at all relevant spatial and temporal scales is the prerequisite for sustainable landscape management. The aim of the conference is to present recent advances in landscape research to enhance the development of sustainable agricultural land use and landscape strategies. The particular objective is to bring together key findings from relevant disciplinary and interdisciplinary approaches as well as from basic and application-oriented research.
