Thematic Outline

The workshop will be dedicated to a joint European initiative on developing protocol-based storylines to support integrated assessments.

Major aims of the workshop include:

- discuss and improve draft agricultural sector storylines for the EU
- discuss if previously identified storyline elements are most relevant (important and uncertain) for land use in the EU and eventually update the list of storyline elements
- discuss plausibility of combinations of storyline elements
- evaluate vertical and horizontal consistency and comprehensiveness of agricultural sector storylines for the EU
- discuss potential presentation formats for agricultural sector storylines
